Forecast for Saturday 03 Oct 2020

Weather: Light and drizzly rain will continue through the early hours becoming heavier and more persistent during the morning. The rain, accompanied by strong northeasterly winds, will become quite relentless during the afternoon and will cause some flooding of streams and footpaths. Rain will continue into the evening and overnight.

Chance of cloud free mountain/hill tops above 600m: 10% or less, persistent hill fog throughout the day. Cloud bases are likely to be around 2-400ft.

Visibility: Poor or very poor for most of the day.
